

How to Order

Specify:

1. Model, voltage and phase of siren.
2. Model, voltage, phase, and type of enclosure (indoor or outdoor) for the motor starter.
3. Model, voltage and signal duration (3 min. or 5 min.) for timer.
4. Model of Siratrol for radio-controlled systems. Indicate radio frequency, type of tone control scheme, type of antenna (for short-range requirements, specify standard cabinet-mount antenna or furnish operating range requirements).
5. Type of siren mounting desired.
